Success Story Alfredo

Alfredo is 12 years old and a happy, caring, and curious boy.

He enjoys exploring his surroundings through his hands and sight, especially through artistic and sensory activities.

Before coming to FUNDAL, Alfredo had limited mobility and independence. With the support of his family and FUNDAL´s asistance, he has made important progress: now he eats independently, communicates through sign language and his communication system. He expresses his emotions and preferences more clearly.

His family has built an important support network to accompany him throughout his journey. Today, Alfredo continues discovering new ways to express himself, learn and enjoy life.
